**a) The course:**

- The course was good. The course could have been taught better because crazy Russian man should have just given us the formulas not all the derivations Prof. b\_\_\_\_. TA Rocks
- Good
- The course was challenging, but the lectures were slow
- The course was difficult and some topics were hard to understand
- The course is challenging

**b) The instructor's teaching:**

- Went above and beyond the call of his duties, deserves a bonus. Best TA in the business made the material seem easy
- Ben taught me Physics
- **The instructor was excellent and very helpful when preparing for exams**
- Best TA ever
- Good
- Ben was more than helpful with every student. By far the best!!!
- Ben was more helpful than the professor
- Ben was a very good TA, he was awesome to the kids and went out of his way to help everyone understand what they were doing
- Ben is a great TA who is always offering tips to study and better understand the course
- Ben is a great TA and went above and beyond what was expected of him. He is deserves a raise
- Ben does a great job all the way around

**c) What improvements would you suggest?**

- Should be promoted to Professor
- Give Ben a raise seriously. He is the man and is a great teacher, he is one of the few people that cares that I learn it
- Going over error analysis in a better fashion or more
- Keep BEN
- Don't grade HWS so harshly. I would work on HW with friends and they would do considerably better than me. My test average was well over a 100, yet my HW grade was around 80, so obviously it was a little harsh
- More Physical displays to understand the material
